Lambeth Business Against Crime
Limited

Company Number: 5824202
Reg. Office: 787, Wandsworth Road, London, SW8 3JQ

The business community is the mainstay of any area, innovating new technologies and implementing them, initiating dialogue and sustaining state-of-the-art communication systems. It is made up of diverse entrepreneurs from all walks of life dedicated to maximising the potential of every opportunity. Indeed, as the Chinese proverb states: "Opportunities are made, not found", and certainly the business community exemplify this dynamic, pro-active approach.

Here in Lambeth we are fortunate enough to enjoy a diversity of cultures, which is reflected in our rich shopping facilities and recreational amenities. The business community is dedicated primarily to promoting a safe and enjoyable environment for its customers, but recognises the value of investing in the wider community of residents and visitors to create an integrated, inclusive community that essentially benefits everyone. Businesses are the barometer of change – in the forefront when it comes to identifying trends in society and the economy.

The tried-and-tested Partnership Against Crime scheme then represents an investment opportunity, in an effective system, which maintains a secure network of communication using CCTV and radio links. The aim is to sustain and celebrate a culture of enterprise and achievement conducive to prosperity. This includes protecting the interests of individual businesses, taking valid action to maintain a safe and viable working environment.

To this end the Lambeth Business Against Crime Ltd (a not-for-profit company limited by guarantee) is committed to working together with the Police, the Council and relevant statutory agencies to prevent and reduce crime. Incorporating best practice from existing Partnerships, there is proven potential to drastically cut crime – through prevention, notification and exclusion. We will have two-way access to the national business crime database and businesses will be in a position to issue partnership exclusion notices to offenders. High standards of accountability are endorsed by LBAC being eligible to receive the prestigious national Safer Business Award.

Having established a firm foundation for constructive regeneration, you can recognise that Lambeth Business Against Crime represents progress towards securing a sustainable future for your business and local area. Please join us and: "Put Your Money Where Your Mouth Is!"

LESLEY BUTLER

Chair of the Board of Directors
